

For the past 10 years, our family has looked forward to the end of summer and start of the holiday season because it means the Festival of Trees is quickly approaching.

What started out as some high school community service hours years ago has grown into our favorite family event of the year. And when I say family, I mean the WHOLE family. Brothers, sisters, cousins, aunts, uncles and everyone in between participates in this event in their own special way. Each year we purchase trees and distribute them amongst the family for everyone to decorate. We put on Christmas music and get into the holiday spirit as we bring our creations to life. Not only does it bring us joy to make trees, but to see the smiling faces of the families and kids in our community as they walk through the festival is really what this event is all about.

We owe a great deal of thanks and gratitude to Ann's Place for the wonderful mission they serve every day and for putting on such a beautiful event like this.

We donate to support our own family members who are faced with cancer but to also honor the memory of those we have lost.

Thank you Ann's Place for all that you do and for allowing us to grow with you over the years.

- The Peirce and Greer Family
